

## Ensure ultimate clamp load for effective gasket sealing with Pro-One.

### Independent Laboratory Test

Pro-One's XPL-101 Penetrating Lubricant and EP-2 Gold Grease used as thread lubricant achieve up to double the clamp load compared with unlubricated bolts.

- Greater bolt clamping pressure ensures a more effective gasket seal, eliminating leakage.
- Pro-One delivers higher clamping forces at lower torque values for ultimate sealing.

Tensile Force vs Plot of Applied Torque - 1"

Part Number	Description
P1-40012	PRO-ONE XPL-101 PENETRATING LUBRICANT 326G (11.5 OZ.) AEROSOL
P1-46015	PRO-ONE EP-2 GREASE 450GRAMS CARTRIDGE
