PRODUCT ANNOUNCEMENT

New addition to the Pro-One Extreme Lubricants Range

Part Number

P1-25032

Pro-One Extreme Lubricants is proud to introduce its latest innovation in performance and protection:

Heavy-Duty Synthetic Hub Oil – 75W90 GL-5 Full Synthetic
Engineered for **Steer, Drive, and Trailer** applications, this premium hub oil is formulated with our proprietary **XPL+ Technology**,

delivering:

- 50x more film strength than conventional lubricants for unmatched protection
- Minimizes oxidative sludge and varnish, keeping systems clean
- Dramatically reduces wear, scoring, and metal fatigue
- Full synthetic performance for superior thermal stability and extended service life
- Helps hubs run cooler and more efficiently, reducing stress on components
- GL-5 rated to meet and exceed demanding gear protection standards
- Built for durability, even under the harshest operating environments

Pro-One Heavy-Duty Hub Oil isn't just a lubricant - it's a performance upgrade

Whether you're hauling heavy loads or pushing through extreme conditions, Pro-One's Heavy-Duty Synthetic Hub Oil keeps your fleet running smoother, longer, and stronger.

Pre-Order Today and be among the first to experience the next level of lubrication.
