

SUPERSESSION BULLETIN

28th July 2025

Changes to the STEMCO Matched Heavy-Duty Bearing SET Part Numbers

STEMCO Australia has changed the part number on all STEMCO Heavy-Duty Matched Bearing Sets to streamline part numbers with all distributors. The product label already features both part numbers, so you can still order under the former number.

Note: There has been no change to the product, just a part number supersession.

NEW PART NUMBER	FORMER PART NUMBER	DESCRIPTION
33118STM	ASET33118	STEMCO HD MATCHED BEARING SET997 ASET33118
33213STM	ASET33213	STEMCO HD MATCHED BEARING SET998 ASET33213
