# PRODUCT ANNOUNCEMENT

**New addition to the GAFF Polyurethane Range****Part Number****11864**

**GAFF 11864** – a Heavy-Duty upgrade of **GAFF 12367**, specifically engineered for late-model Kenworth vehicles operating in harsh conditions.

**Key Highlights:**

**Design Change:** Shore durometer rating increased from 70 to 80 for enhanced durability.

**Testing:** Designed and field-tested in Australia to meet demanding conditions.

**Impact:** No change to core performance or fitment. Improvements focus on extended life and long-term reliability in severe environments.

This enhancement ensures superior resilience for fleets facing Australia's toughest terrains.
