

# PRODUCT ANNOUNCEMENT

## New STEMCO Premium Wheel Bearing Kits

26<sup>th</sup> February 2026

We are pleased to announce the standardisation of our Premium Wheel End Kit part number format. This update streamlines our range and makes product selection clearer and more consistent for all customers. In addition to the updated part numbering, we are introducing new customised seal options designed to meet a wider range of performance and operating requirements:

### GUARDIAN HP

Spindle Installed Seal - Tool Fit  
 Designed for Harsh Conditions  
 Maximum Contamination Resistance  
 High Temperature Resistance  
 Suitable for Oil & Grease Hubs

### DISCOVER XR

Hub Installed Seal - Tool Fit  
 Disc Brake Application  
 Excellent Contamination Resistance  
 High Temperature Resistance  
 Suitable for Oil & Grease Hubs

### VOYAGER

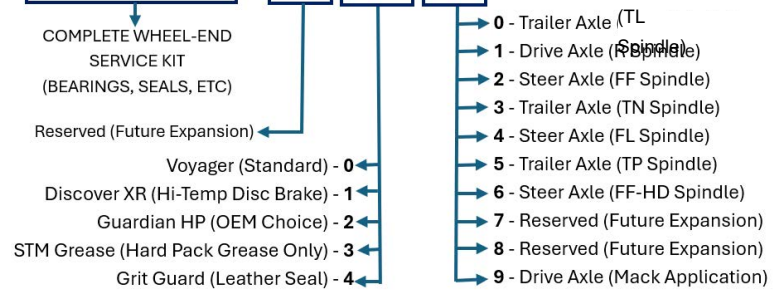

Hub Installed Seal - Tool Fit  
 Drum Brake Application  
 Strong Contamination Resistance  
 Strong Temperature Resistance  
 Suitable for Oil & Grease Hubs

### STM GREASE

Hub Installed Seal - Hand Fit  
 Drum Brake Only  
 Good Contamination Resistance  
 Good Temperature Resistance  
 Suitable for EP-2 Grease Only
