PRODUCT ANNOUNCEMENT

Australian Stockist of NEW Wheel Chock Brackets

Keep your wheel chocks secure, organised and ready for use with the new Wheel Chock Bracket range. Available in single and dual configurations, these heavy-duty steel brackets are designed specifically for 18455 GAFF® Polyurethane Wheel Chocks and built to withstand demanding transport and industrial environments.

Part Number

18455SB

Single Wheel Chock Bracket

Secure storage solution designed specifically for a single 18455 GAFF® polyurethane wheel chock. Heavy-duty steel construction provides safe, convenient chock retention for transport and workplace applications.

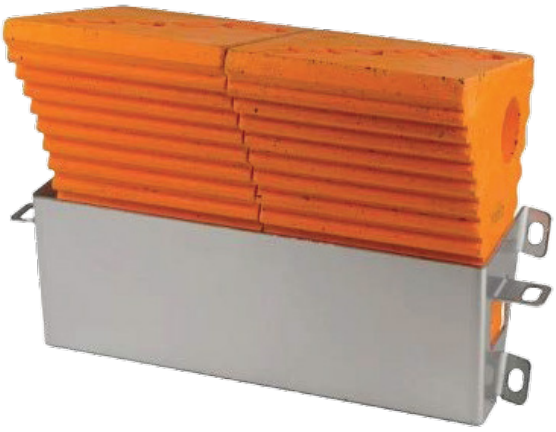

Part Number

18455DB

Dual Wheel Chock Bracket

High-capacity storage bracket engineered to securely hold two 18455 GAFF® polyurethane wheel chocks. Robust steel design keeps chocks organised, accessible and ready for use when needed.
